What we can expect from you:

- Full stack web application development
- Designing user interactions and experiences in web applications
- Creating new and leveraging existing backend services to create an end-to-end web application
- Designing and implementing a learning management system for aviation communication
- Working with an existing Android and iOS application to create a similar web experience
- Experience with server-side languages such as Python, Java, and Ruby
- Experience with fundamental front-end languages such as HTML and CSS
- Experience with popular modern JavaScript frameworks
- Familiarity with document databases such as MongoDB
- Familiarity with Firebase and Google Cloud APIs preferred
- Familiarity with text-to-speech, speech-to-text and speech analysis tools
- Attention to detail
- Strong problem-solving skills
- Excellent verbal communication skills
- Interest in Aviation preferred

What you can expect from us:

- Interesting, challenging work
- Competitive pay
- Atmosphere where you are a valued member of the team
- 100% remote work
- Great, open communication
