

# iOS Senior Engineer

## SENIOR iOS ENGINEER

Opening for a Senior iOS Engineer with experience in UI development with Swift, to help architect, develop, and test future iterations of the PlaneEnglish digital training products. We're looking for someone who has the technical expertise to find and implement new ways to perfect, improve, and contribute to the further development and expansion of our existing applications, ARSim, ATSim, and ProSim.

PlaneEnglish is a fast-growing startup offering digital aviation training products. Our flagship product, ARSim Aviation Radio Simulator and training curriculum, is widely used by general aviation pilots, flight schools and the U.S. Air Force to better prepare all pilots.

We emphasize communication, high personal standards, and creativity.

Position is 100% remote. At this time, we can only consider applicants with authorization to work in the United States on a permanent, full-time basis; unfortunately, we cannot provide visa sponsorship.

### Qualifications

#### *Required*

- *5+ years of experience with:*
  - iOS Development
  - SWIFT/Objective-C
  - UIKit
  - API design
  - Ability to write clean, concise, scalable code in Swift
  - GitHub/TFS for task tracking and source control
- Experience shipping one or more Swift apps currently available in the App Store
- Must have professional experience coding in Swift and an understanding of basic data structures and asynchronous programming
- Ability to identify application bottlenecks and opportunities to optimize performance
- Personal projects that show an aptitude for technical excellence and product sense
- Participation in code reviews and take an active role in developing best practices within the team
- High sense of urgency and ability to meet timelines  
Drive to learn the latest programming technologies and interest in innovations within the mobile industry
- Excellent communication skills
- Analytical thinker focused on producing quality work

#### *Desired*

- Demonstrated design and UX sensibilities

Experience with:

- Aviation
- Java
- GIS mapping software and open street maps

**What we offer:**

Competitive salary

Interesting, challenging work

Atmosphere where you are a valued member of the team

100% remote

Great, open communication
